

Speech and Gaze in Virtual Humans

Maria Staudte, Matthew Crocker, Alexis Heloir and Michael Kipp

Detailed Work Plan

- Objective
- Activities
- Tasks + people
- Risks

Implementation Q/A

Technical Update

- How to send feedback messages from the EMBOTS framework to the EMBR runtime?
 - New EMBRScript element: `COMMAND_MESSAGE`
e.g: `COMMAND_MESSAGE:"hello_world"`
 - To be parsed in the python runtime, in the `refreshSkels()` method:

```
feedbackMessage = self.realizer.getFeedbackMessage()
```
 - Download the last EMBR version:
<http://embots.dfki.de/EMBR/data/EMBR-0.7.3.exe>
